WELLBEING WORKSHOPS

The positive effects of music on well-being have been widely investigated. The bodily engagement in drumming was linked to vitality and to "feeling good physically & mentally"

TEAM BUILDING WORKSHOPS

Imagine walking into a room where 30+ drums are setup and ready to play! Working as a unit brings about a sense of togetherness and the impact is pretty instant.

EVENT & CONFERENCE WORKSHOPS

Drumming workshops are a great addition to events, conferences and trade shows. A break-out room is set up where participants get to enjoy learning to play together in a drum circle, generating beats & rhythms before heading back to the event.

WHY DRUMMING?

Drumming is one of the most powerful and effective activities out there. The effect is immediate. Everyone can feel it, hear it and the energy generated is highly infectious.

Playing as a drumming unit of up to 30 people at a time requires trust, teamwork and creativity. All of which are delivered during our workshops.

WHAT TYPE OF DRUMS DO YOU USE IN YOUR WORKSHOPS??

When people think of a drumming workshop, they automatically think of African drums like the Djembe.... Well...that's not us...We use conventional single drums on stands, all of which are played using Sticks....
